Park & Wait Lot

 BACK

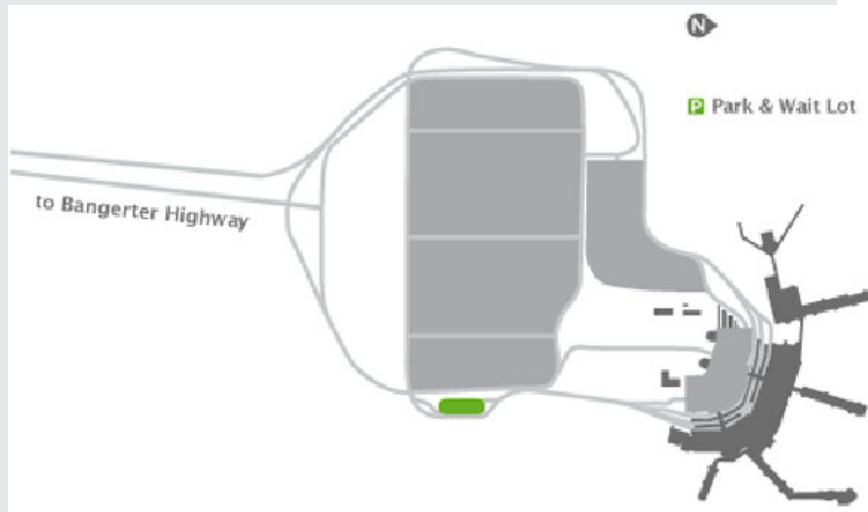

Picking up someone at the airport? Simply use the free Park and Wait Lot and there is no charge.

The Park & Wait lot is an area where drivers wait in their vehicles, free of charge, while passengers deplane, pickup luggage and walk to the curb for pickup.

The lot is located on your right as you enter the airport, south of Terminal One, and offers an alternative to circling the terminals or parking in the hourly/daily parking lot.

To assist you in tracking the arrival of person you are picking up, the Park and Wait lot includes large electronic flight information signs displaying flight arrival information.

This process works best if you instruct the passengers you are meeting to call you via cell phone when they are on the curb for pick up.
